

Lab1 - Introduction Lab

Due 5/17/2024

1 Introduction

This is the first lab assignment of the semester and is meant to make sure that your programming environment is set up and working.

Follow the InstallationTortutrial.docx that can be found on Canvas -> Files -> Labs to insure that you have Miniconda and openCV installed and working.

2 Grading (Out of 100 points)

- 10 Points : Add your name and date to the beginning of your code.
- 10 Points : Use appropriate comments throughout your code.
- 40 Points : Your code runs.
- 40 Points : You uploaded your assignment in the appropriate format to canvas.

3 How to turn in

You must submit a zip folder that includes all files, folders, and images that are required to run your program. Name the zip folder "Lab1-Lastname.zip" and upload it to canvas

Good Luck Cat!
